Tuesdays and Fridays

MIDDLEBURG

William Moreland bought several head of cattle from various parties in this section last week.

Some claim to have seen frost here Friday morning, any way, overcoats were brought into use.

Several automobile owners hereabouts disregarded the order forbidding the use of autos on the Sabbath and were out pleasure riding Sunday.

Pleasure riding was indulged in here Sunday as though there was no order forbidding the use of automobiles for that purpose on Sunday. Some people are real patriotic until patriotism interferes with their pleasure and then patriotism is thrown to the wind. A little "jacking up" of a few of the violators would not be out of place and would doubtless have a good effect.

Tom Calder came near putting Killis Roy out of business a few days since. They had a falling out over their children and Roy went after Calder with an ax, but was too slow and Calder got in his work with a club and laid Roy on the "cooling board" for a short while. Those who witnessed the affair say it was short but interesting. A daughter of Roy who interfered in some way was slightly hurt in the "fracas."

The vagrant law is working fine here. There is little or no loafing. People seem to have taken themselves to some useful vocation and the whittling of goods boxes seems to be a thing of the past. The world is getting better and will be real good when the Kaiser and his baby-killing war lords are wiped off the face of the earth, or rather when the last mother's son of them are made to dangle at the end of a rope, a performance for which they seem to be well suited.

Thirty-five members of the crew of the American transport Mount Vernon, formerly the German liner Kronprinzessin Cecilie, were killed when the steamer was torpedoed 200 miles from the French coast. The survivors were in the engine room when the torpedo struck the ship. The steamer was able to return to port.

Under a new system to be adopted by the War Department, only the names of those members of the American Expeditionary Forces who are killed or missing in action will be called to America.

DOINGS THE COUNTRY OVER

With a piece of bone from a horse's hip grafted in his own shattered right hip, Roy Rone, of Logansport, this state, came home from France. He is on furlough and expects to return to his company within a few weeks.

Badly burned when her clothing caught fire from a coal oil can explosion while starting a kitchen fire, Mrs. Carrie B. Honaker, wife of Elliott Honaker, a farmer, of Fayette, died at a Lexington hospital.

By order of Lexington General McAdoo there will be no more garnishees of railroad men's wages, but those who do not pay their debts will be discharged. This will be as effective as the garnishee and save creditors costs.

The synod of the Southern Presbyterian Church of Kentucky will meet at the church in Nicholasville October 3, where President Wilson's grandfather once was pastor. Gen. Bennett H. Young addressed the congregation of the church, which is 98 years old, Sunday.

Fuel Administrator Garfield said yesterday that he expects soon to fix a price on gasoline for domestic purposes as well as Government and war uses. The plan is to lower the present market price. Mr. Garfield is awaiting a full report on the situation before making a definite announcement.

Federal Food Administrator Fred M. Sackett told of great work done in Kentucky in the first year of action food regulation, and shows the wonderful growth of his department. He says the State has saved \$35,100,000 in flour alone by the authority given the Food Administrator to regulate prices.

More than 1,500 men were inducted into military service and 15,000 others were adjudged seriously delinquent as a result of the "slacker" roundup in New York last week. Charles F. DeWoody, chief agent of the Department of Justice, announces. A total of 60,187 men were examined.

A jury was speedily chosen in the Federal court at Cleveland to try Eugene V. Debs on an indictment charging violation of the espionage act. The court proceedings were enlivened by the severe rebuke administered by the judge to seven friends of Debs who applauded the statement of his attorney.

Republicans are planning a herd fight this fall to win control of the House and Senate. One vote may decide whether the Administration is to have a Senate majority. Kentucky has one vote to give. In the House it has eleven votes, of which nine at present are with the Government. In the Senate it has two.

Gen. March told newspaper men that more than 90 per cent of the American forces in France are now under arms. Gen. Pershing's immediate command, indicating that an offensive by a huge American army is contemplated at an early date. He indicated that they had finished their period of training with the other allied forces.

Secretary of War Baker, Assistant Secretary John D. Ryan, in charge of aircraft, and Surgeon General Gorgas have arrived in France, according to an announcement made in Washington Sunday night. Mr. Ryan made the trip to investigate the aircraft situation at the front, while Gen. Gorgas will investigate the sanitary situation.

A big crowd greeted the annual exhibition opened by the State Fair management yesterday. About 15,000 persons passed through the gates. A "thriller" met on the program was furnished when one of the members of the American team in the auto polo contest was seriously injured. The exhibits and attractions all bear a decided wartime appearance.

Control by the Czech-Slovaks of 2,000 miles of railway from Olevna to Penza which is only 600 miles from Petrograd, opens the way for a new blow at Germany through the heart of Russia, according to Vladimirsk advices. The movement in Siberia of Japanese Czech and Cossack troops is proceeding satisfactorily. The food situation in Soviet Russia is described by American refugees, who have arrived at Stockholm, as deplorable. There has been a bountiful harvest, but the peasants refuse to feed the cities.

An attempt was made to mob Will Castle, the negro who killed Private Oliver Broughton, who was killed by a furlough but it was prevented by a strong guard at the Knox county jail. A crowd of more than 100 persons attempted to get the jail with a noise and demand the keys from Jailor Lewis, but dispersed when the mob was gunned down. Castle shot Broughton without excuse when the latter accidentally stepped on his foot. Castle was shot but not seriously wounded by Officer Fisher. Broughton's wife is in Louisville.

In what is said to be the loneliest speech ever delivered in the House, Representative Kitchin, chairman of the Ways and Means Committee, Saturday concluded his remarks, begun the day before, on the War Revenue Bill. Mr. Kitchin declared that a stupendous amount of bonds must be floated before July 1, but that the present revenue bill probably would suffice for carrying on the war next year. Touching on the prohibition measure, he declared that other sources of revenue must be found if the manufacture of beer is stopped December next.

FOR A WEAK STOMACH

The great relief afforded by Chamberlain's Tablets in a multitude of cases has fully proven the great value of this preparation for a weak stomach and impaired digestion. In many cases this relief has become permanent and the sufferers have been completely restored to health.

A DEMOCRATIC CONGRESS

Congress is Gen. Pershing's supply depot. It must put into effect the plans to re-enforce him that are conceived at the White House and in the war-making departments. It must be entirely in accord with the policies of the Administration, particularly while the war lasts. Obstruction and discord in the houses of Congress mean a slackening of the lines of communication between Washington and France. Soldiers have no politics, but, if Gen. Pershing and the American army could give their views, they would declare for a Congress in entire accord with the Commander-in-Chief of the army and navy.

The only Congress that can be entirely relied upon to present this front is the Democratic Congress. The course of the Republican minority demonstrates that. While they have been held into line as a minority, once in the majority party politics would inevitably creep into the conduct of the war. It is the natural course of legislators in a government by party, not wholly intentional, but partly temperamental and traditional.

At the very least Kentucky should continue to insure to Woodrow Wilson eleven Democratic votes in the House and the Senate—J. W. Beckham and A. O. Stanley in the latter; and in the House the following patriotic Americans: Swager, Sherman, Campbell, Carrill, Arthur B. Rouse, D. H. Kinchloe, W. J. Fields, Ben Johnson, A. W. Barkley, R. Y. Thomas, Jr., and Harvey Helm. A vote cast against any of these men is a vote of dissatisfaction with the conduct of the war, a vote to "supervise" and watch the President, a vote to hamper Gen. Pershing.—Courier-Journal.

WILL BECOME LT. GOVERNOR

In the probable event of Gov. A. O. Stanley being elected United States Senator in November, he will take his seat on March 4, next, when Lieut. Gov. James D. Black, of Barbourville, will become Governor and serve as such until December, when his successor will be inaugurated Governor. Upon the elevation of Lieut. Gov. Black to the governorship, State Senator Charles M. Harris, of Versailles, president pro tem. of the upper branch of the Legislature, will become acting lieutenant governor. Senator Harris is now a commissioned officer in the army with the rank of Major, attached to the Judge Advocate General's department.—Louisville Times.

CHARGED WITH BEING SLACKER

Mike Arlip, who works for Peter Kelen, who conducts a soft drink establishment and pool room on Depot street, is in jail on the serious charge of being a slacker. He claims to have registered in the State of Michigan, but had no card to prove that he had done so, hence the local board of officers in having him held. Whether or not he is guilty as charged is being investigated. It is hoped that he can prove his innocence. Arlip said he had a registration card but lost it.

CONSCIENCE BEST GUIDE

The conscience of each citizen must be his best guide in determining whether it is proper to ride to church on Sundays in a motor car. The Fuel Administration gave this answer to State and local administrators, who had asked for an interpretation of the request that the use of automobiles be discontinued on Sundays east of the Mississippi in order to save gasoline for war purposes. Where churches can be reached reasonably in another way automobiles should not be used, the administration said.

THE LATEST WAR NEWS

Despite desperate opposition on the part of the enemy on the whole front from Arras to Rheims, the British, French and Americans continue to push their way forward, though at a somewhat slower pace. The allied ranks are being deluged with a rain of artillery shells and machine gun fire, but the British on a four-mile front made a decided gain in the direction of Cambrai. The French have pressed forward closer to Laon and the Americans along the Vesle have made good progress.

With the Hindenburg line reached in the allied offensive and the Germans using every effort to check the progress of the British, French and Americans, it is believed by military critics on both sides of the Atlantic that the big battle on the western front is entering upon a new phase. Washington officials believe that with the operations that are to be made the strategy of the Allies will be disclosed.

Bolshevik authorities at Moscow have been warned through ministers from neutral countries that the Allies will hold the Soviet authorities responsible for the safety of allied consular officers and missions now detained in Russia. To the demands Foreign Minister Tchitcherin made counter demands on the Allies. One hundred and seven Americans reached Sweden Friday and told of their experiences in Russia.

French forces Saturday made an advance of from four to five miles on the Somme front, and crossed the St. Quentin canal at Tugny and St. Simon after a violent engagement. The British have forced the Germans to fall back on a seventeen-mile front in the north, and have made progress on the road to Cambrai. Important supplies have been captured by both the British and the French.

The sway of the Bolsheviks is waning. The illness of Lenin puts the Russian government in a precarious situation, and anti-Soviet agitation against the Soviet government will be revived, it is believed. In Siberia the Czech-Slovaks have effected a junction with new Russian forces, which is hailed as a decided victory.

On a ten-mile front the British forces scored a decided advance and are now within six miles of St. Quentin. The French, pushing forward in the old Novon sector, are two and one-half miles from La Fere and are approaching Laon. The British in their new position occupy the line they held before the German drive began in March. Americans in the Vesle region scored additional gains Sunday.

The penalty inflicted by United States court for failure to register is very severe.

1,000 CATTLE CHANGE HANDS

Over 1,000 cattle changed hands at Jones' Stock Pens Monday and trading was reasonably good all day. The best stuff—a bunch of 800-pound steers—brought 11c. Heifers sold at 8 to 8 1/2c, butcher cattle at 6 to 7 1/2c. Sheep sold all the way from \$12 to \$20 and a few hogs changed hands at 17 1/2c. A very large crowd was in town and business in all lines was active. The recent rains made grass grow rapidly and the farmers were seemingly all anxious for cattle to graze. Very few horses or mules were sold.

THE I. J. IN ERROR

The Interior Journal begs ten thousand pardons. It gave the Hustonville ladies of the Red Cross the credit of the big dinners served at the Carpenter and Helm sales last week when the Moreland ladies should have had it. The latter ladies have been working like Trojans for the good cause and this paper would not rob them of the least credit for their commendable efforts for "ten thousand worlds," as good old Brother Barnes used to say.

THREE OLD GENTLEMEN

CLERK WAS ROBBING HIM

A dispatch from Middlesboro says that A. Whittaker, who has been clerking in Frank Lee's drug store for 18 months, was arrested on the charge of appropriating cash from the register. He gave bond in \$1,000. It is alleged that Whittaker has been taking money from the cash register for months and that his pecuniations amount to at least \$2,000. Mr. Lee, it will be recalled, clerked in the Penny Drug Store here for a long time. His friends regret his loss and hope he will make it hot for the fellow who has abused his confidence in him.

While Col. and Mrs. Grant E. Lilly, of Richmond, were taking a walk around Shakerstown, where they were spending a few days, some drunken or crazy fellow named Oscar Cox fired the contents of his shot gun at them. Mrs. Lilly dodged the leaden missiles, but the colonel was not so fortunate. He caught three shot in the side of his face. The fellow on being arrested said that somebody had scared his children and he was trying to pay them for it. He was held over to the grand jury in \$1,000.

NOT SEEKING SHORT TERM

William D. Cochran, who was mentioned in connection with the Republican nomination for U. S. Senator for the short term positively refused to allow his name to be used, saying that Gov. Stanley had the appointment, and should be allowed to exercise it.

Secretary McAdoo approved of the form of contract under which the Government will pay the railroads a yearly rental during Federal control. The 170 roads will be asked to sign the contract. An additional wage increase, affecting 1,000,000 railroad workers, also was approved by Director General McAdoo.

The body of Senator James was laid to rest Friday afternoon in the little cemetery at Marion. Practically all of Crittenden county attended the services and business at Marion was suspended for the day. Simple ceremonies were held at the Methodist church and following a brief prayer the casket was lowered into the grave beside that of his mother.

A committee to stabilize cotton prices and consider matters connected with handling the crop soon will be appointed by the War Industries Board with the approval of President Wilson. This step will be taken because of the short crop in order that the needs of the nation, as well as the Allies, may be satisfied.

CRAB ORCHARD

Mrs. Silas Anderson, of Stanford, is with her mother here this week.

Mrs. Carrier, of Nashville, has been with Mrs. Susie Curtis for a few days.

Rev. Morgan attended M. E. conference at Cynthiana, which began there Monday.

Messrs. Louis and Raymond Bell motored to Lexington Wednesday. Little Guy Newland went with them.

Mr. and Mrs. Robert Collier and Mrs. Wyatt and baby visited friends in Brodhead and Mt. Vernon this week.

Mr. James Edmiston and sister, Mrs. Nan Elder, took Jimmie Burgin and Susie Edmiston to Campbellsville Monday, where the latter will enter school.

There will be preaching at the Baptist church Sunday morning and night by the pastor, Rev. Stone.

Come and hear the good things he has to say to you.

It was not Mrs. Hough Reid who donated the twelve dollar cake to the Crab Orchard Red Cross chapter, but our own Mrs. John Red here who deserves the credit.

Mrs. Nancy A. McClure went to Shepherdsville Monday to visit relatives. Mrs. Anna Napier is also there having given up housekeeping in Paris since both her boys entered army service.

Rev. Gooch, of the Baptist church, who has been holding a series of meetings at Watt's chapel, near here, has had over forty additions to the church. Many of these being very elderly people. It is said that at no time was greater interest shown or the gospel better presented.

Rev. Wright preached fine sermons Sunday morning and evening at the Christian church and in the afternoon a large crowd witnessed the

baptismal service at the Springs pool, where twelve converts were baptized by the pastor, Rev. Wright, in a most beautiful and impressive manner.

Mrs. O. M. Nicholson and daughter, Meredith, of Holiday, Kas., and Mrs. O. Robinson and daughter, Margaret, of Augusta, Kas., who have been visiting their aunt, Mrs. Agnes Herrin, here and relatives at other Kentucky towns, left this week for Chicago for a visit with relatives before returning home. All were well pleased with Kentucky and her people.

The protracted meeting at the Christian church conducted by Rev. Carl Agee, of Lawrenceburg, closed last Friday night. This splendid man of God came to us so enthused with his message, so glad to be able to tell it, that he succeeded in his desire to hide himself entirely behind the cross of Christ. He gave the most

beautiful and simple gospel ever preached here, "Jesus only," being his theme from start to finish. He is a power for God in the pulpit, and is certainly one of the very finest ministers who ever held a meeting here. Fourteen additions, twelve by immersion, was the outward result of his work, but not one of the large crowd who heard him but went away feeling that they had been spiritually benefited.

I. W. W. members are believed responsible for the bomb explosion in the Chicago Federal building Tuesday afternoon. Philip J. Barry, in charge of the Department of Justice in Chicago, said that he attributed the explosion to the organization. Nine men and a woman were arrested following the disaster. Four persons were killed and seventy-five injured as the result of the explosion.

ROBINSON'S

THE INTERIOR JOURNAL

E. C. Walton and J. H. Wright

Entered at the postoffice at Stanford, Ky., as second class mail matter.

A NOMINEE WORTHY

OF SUPPORT

Whenever you hear a man kicking and saying that the committee should have called a primary or a convention to nominate a candidate for U. S. Senator put him down as a luke warm supporter of the governor, if not a real opponent. Attorney General C. H. Morris, in an opinion furnished the committee, said it had no authority to call a primary or convention, under the circumstances, and that it was purely within its delegated rights to make the nomination. Even if it had the right to call either a convention of a primary the nomination would hardly have expressed more of the popular will than it does. People are not taking much interest in politics this year, as shown by the fact that only about 45,000 Democrats voted in the August senatorial primary, which is always held. There were only sixteen days in which a primary could be held legally before the election and that was scarce time for notice of it and preparation, even had the committee been authorized to call it. So let's stop talking about impossibilities and get down to work for Gov. Stanley, whose congressional experience of twelve years eminently fit him for a seat in the Senate, where he will at once take a leading part, as he possesses the confidence of the people of the country and is in full accord with the policies of the President, who will regard his election as an endorsement of them and insistence that he continue to use every effort to win the war.

The Interior Journal heartily commends the prompt action of the committee in doing what it appealed to it to do and in nominating a man so entirely worthy of the honor and capable to creditably fill the position. Governor Stanley possessed the confidence and friendship of Senator James and we are sure that no man's nomination would have pleased him more than that of Gov. Stanley, who is his logical and fittest successor. We do not know when he will resign as governor as he does not have to be in a hurry about it, but we do know that when he does the office will be in good hands since Lieutenant Governor James D. Black will succeed to it and fill it creditably.

WHO SENATOR MARTIN IS

As many will be asking what manner of man is Gov. Stanley's appointee to the Senate to fill Ollie James' unexpired term, ending next March, we hasten to say that Mr. George Brown Martin is a man of ability in the legal profession and of high standing at his home in Catlettsburg and everywhere he is known, which unfortunately is not general. That he seems to have been able to walk that narrow strip of land between the devil and the deep blue sea with great success and credit, shows him to be a man of parts. He is the special friend of Senator Beckham, who appointed him to the county judgeship of Boyd county to fill a vacancy. He supported Beckham in his campaign for the senatorial nomination against Stanley but was one of Stanley's strongest adherents for governor. He has thus been able to retain the friendship of the two leaders of contending factions and Senator Beckham is highly pleased at the appointment. In fact, he went to Gov. Stanley, with whom he had had no communication for a long time, and congratulated him on his appointment and pledged his hearty support to the governor in his race for the long term in the Senate. Thus to all appearances the bloody hatchet, which has been uplifted, has been buried, and Kentucky Democrats fully united, will continue to go forth to certain victory. If any one, therefore, tells you that Dr. Bruner, the Republican nominee, has the ghost of a chance to beat our able young governor, say to him that he could not be more mistaken than if he had burned his shirt, and that the voters of Kentucky will never do so foolish a stunt as to send a greenhorn to the Senate at this critical period when they are sending a man thoroughly acquainted with legislation at the national capital, and whose long and honorable service in the Lower House has made him a national figure. Let every Democrat and other patriot resolve now, and keep the resolution, to record his vote for Gov. Stanley and see that a man who is in thorough sympathy with the President in his war policy is sent to aid him in every effort to win the war.

As a war necessity to save gasoline for war use, the Government has requested the pleasure use of automobiles on Sunday be discontinued. With few exceptions the request last Sunday was observed. The patriots conformed to the request, the fellow who loves his pleasure better than his country did not. To compel this element to do what should be done we suggest our city council pass an ordinance forbidding any machine used on our streets on Sunday except for actual church attendance or for relief of suffering or distress, a violation of the ordinance to be punished by a fine of \$25 assessed against the machine, and the machine to be held for payment of costs, the fine when collected to be paid to the local Red Cross chapter to supplement its war relief fund. The passage of such an ordinance and its rigid enforcement would meet public approval and be in keeping with the nation's request.

The last issue of the Somerset News contains a signed attack by Thomas M. Owsley on Gov. Stanley, which appears libelous in the extreme and seems to call for a drubbing, a criminal indictment or a libel suit. We are utterly surprised that our old countyman, who did not used to be so "savage," should write as he does, and can only explain the matter by recalling that new converts always shout the loudest and turncoats halloo the longest in order to prove their zeal. But of this, more when we have more time.

THE FRIENDS OF CAPTAIN SUGAR

(By Emily Rose Burt.)
Captain Sugar of the American Food Army was suddenly called to service overseas. Most of his family were prisoners of the enemy in Germany and Austria and couldn't get out to help in the world war, and he was more than eager to go for he knew how badly he was needed abroad by the Allies and the people in the war countries.

But all the same he did worry a bit about the way things would go in America in his absence. You see, in civil life before the war, he'd been in the "sweets" business. His chief line was candy, with cake and pudding branches.

"Whatever," said he to his commanding officer, "will the folks do without me? They depend on me so. I'm a family pet."

"You are," was the reply, "but your duty is plain. You must go to the aid of the Allies. Meanwhile we must try to find substitutes to carry on your business. We'll look out for such as aren't so well fitted for overseas service and they can do their bit at home. So, Captain Sugar, you're not to worry."

"I shan't worry," said Captain Sugar, "but I have a personal business, and I fear folks won't want to give their confidence to strangers."

"Leave it to me," replied his chief, reassuringly.

"Well—since you're so sure, just as a favor, save a little corner for me when I come home again," joked Captain Sugar.

"So he sailed across the sea and his commanding officer, who had his wits working busily, set about rounding up helpers to carry on Captain Sugar's work."

One of the first chaps he thought of for the job was Mr. Corn.

"Seems as if the ones that are doing the most already are always the first ones asked to do something extra," said Mr. Corn with a cheerful grin reaching from ear to ear. "I've been doing a lot of Colonel Wheat's work since he's been in the service. However, you may count on me. Certainly it's up to me to be patriotic, for I'm an American to my very roots."

"And what's the special stunt I'm to do?"

"Your job," said his chief, "will be to form the Corn Syrup Association and take charge of a portion of the Cake Frosting business with the pudding sweetening branch."

"Good," said Mr. Corn. "I'll enjoy that. Maybe I can even put one over on Captain Sugar," and he winked knowingly.

"There's a firm up in Vermont ought to help me out right now," said the General to himself as he finished his successful interview with Mr. Corn. "I'll just wire the Maple Brothers. Wouldn't wonder if they knew enough about the sweetening business already to be valuable."

"To Maple Brothers, Sugar Hill, Vermont. Can you lend your services in the 'sweets' business for duration of war? General Food Resources," he telegraphed.

The answer came back at once: "To General Food Resources, Washington, D. C. Will be glad to help out in 'sweets' business. Entire resources of Maple Syrup and Sugar Association at your command. Maple Bros."

It seemed a good idea to let the Maple Brothers and Mr. Corn join forces to a certain extent in the cake frosting and pudding sweetening branches, as they had already been acquaintances in the pancake club and knew something about the same line of work.

With Mr. Corn and the Maple Brothers enlisted in the war work, the general felt that a good beginning had been made, but he knew that he must widen his corps of workers, so (by postplane) he communicated with the Busy Bee Company. They enthusiastically agreed to give the services of Miss Honey, their most efficient employee.

"You'll find Miss Honey a great help in the 'sweets' business," they wrote from Cloverfield, Ohio. She's an expert."

The general immediately planned to make her an assistant in the dessert department.

"I need a good head for that department. I believe I can get Miss Molasses to fill the place, as she's a relative of Captain Sugar, she ought to be interested."

Sure enough, she was proud to come from the South and take the job. She was full of splendid ideas about gingerbread and Indian pudding and Brown Betty and made some good suggestions which were used in the candy department. Miss Molasses' Scotch kisses were divine, so everybody said, and she and Peter Popcorn came to some kind of an understanding which was looked on kindly by the general and immensely enjoyed by the children.

Of course, everybody cooperated in the candy department. Mr. Corn through his syrup association, and the Maple Brothers through their syrup and sugar association, and Miss Honey in countless ingenious ways of her own.

But still more aid was needed, so the general called for volunteers. Then came forward Mr. Prune, Mr. Date, Mr. Fig, Mr. Nut and all his family, the pretty fruit girls and even old lady Ginger—"Grandmother Ginger," the rest called her. Madame Chocolate was director, and Mr. Nut made himself useful everywhere. He and Mr. Prune, Mr. Date and Mr. Fig often got together for the benefit of the business.

So well did these candy volunteers succeed that the keepers of all the candy shops begged them to take front seats in show windows, and little girls and boys going by would pull at their mothers' sleeves and say, "Please buy us some stuffed dates or peanut balls." And every lady shopper with a sweet tooth would run into a candy shop and buy nut and fig caramels, stuffed prunes or chocolate almonds.

"Getting along fine without you," cabled General Food Resources to Captain Sugar, "so stick over there till the last gun is fired."

And that's what Captain Sugar is doing!

SHEAVES AND SHELLS

Along the Vesle river the shells are falling by the thousands into the strongholds of the enemy. They are exacting a terrible toll of life from the German ranks. They are forming barbed wire behind which the Yanks are pushing forward, always for ward. They are demolishing trenches and barbed wire entanglements. Occasionally they are demolishing an enemy ammunition dump. They are beating the Hun backward toward the Rhine.

And over thousands of fertile acres through this broad land the sheaves are likewise falling—into the yawning mouths of the threshing machines. Streams of golden grain are filling the granaries and elevators. The yield has been exceptional. Few are the fields that have not set a new production mark. And the price is better than it has been in many a decade.

Like the shells the sheaves will help in beating back the Hun.

For not only will they furnish sustenance to the allied armies in the field. They will also contribute materially in furnishing the militant supplies of warfare. Hand in hand the sheaves and shells will serve.

The farmer has done well his part in production. He will reap handsomely in profits upon his season's work. And having done so he will be in better shape than ever to help his country further through the purchase of Liberty Bonds.

And his country, more than ever now, expects him to do this.

SCHOOL-TEACHER NEEDED

"I never have had such a 'Gosend' come to me as when I took the first dose of May's Wonderful Remedy. I was afraid I would have to give up my school because of severe stomach, liver and bowel trouble which caused such a pressure of gas that I could not use my brain at times, and my heart would palpitate awfully. Since taking a treatment of May's Wonderful Remedy a year ago, all this has disappeared." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. The Lincoln Pharmacy; The Penny Drug store.

The Emergency Agricultural Appropriation bill, carrying an amendment providing for national prohibition during the war and effective next July, was passed by the Senate without a roll call. The measure will now go to the House. As a food conservation measure, Herbert C. Hoover announced that the manufacture of beer will be prohibited after December 1.

When you have backache the liver or kidneys are sure to be out of gear. Try Sanol, it does wonders for the liver, kidneys and bladder. A trial 50c bottle will convince you. Get it at the drug store.

Chamberlain's Cough Remedy

This is not only one of the best and most efficient medicines for coughs, colds, croup and whooping cough, but is also pleasant to take, which is important when a medicine must be given to young children. Chamberlain's Cough Remedy has been in use for many years and has met with much favor wherever its good qualities have become known. Many mothers have given it their unqualified endorsement. Wm. Scruby, Chillicothe, Mo., writes, "I have raised three children, have always used Chamberlain's Cough Remedy and found it to be the best for coughs, colds and croup. It is pleasant to take. Both adults and children like it. My wife and I have always felt safe from croup with it in the house." Chamberlain's Cough Remedy contains no opium or other narcotic.

Gen. March told Washington newspaper men Wednesday that more than 1,600,000 American soldiers have left for points overseas. All but about 10,000 of these are in France, he explained. He reviewed the battle situation on the West front and indicated that he expected a major movement by the First American Field Army soon.

Do you get up at night? Sanol is surely the best for all kidney or bladder troubles. Sanol gives relief in 24 hours from all backache and bladder troubles. Sanol is a guaranteed remedy. 50c and \$1.00 a bottle at the drug store.

CHEWING GUM FOR YANKS

More than 2,000,000 packages of chewing gum have been ordered by the War Department to help the army keep off thirst during long marches. Lemon drops made from a special formula and canned tomatoes also have been ordered in large quantities for the same purposes, says a statement from the War Department. More and more open warfare in France is increasing the demand not only for thirst quenchers, but also for hard bread for marching rations.

WAR'S TERRIBLE COST

Government expenses in August were at the rate of more than \$40,446 a minute, reaching the enormous total of \$1,865,513,000 and exceeding by more than \$200,000,000 the highest previous monthly record of expense since the war began. Of the total \$1,524,901,000 went for the upkeep of the army and navy, ship and airplane construction and other direct war expenses.

The Smith & Wesson Company has notified the War Department that it would rather be taken over by the Government than abide by a recent decision of the War Labor Board. The decision called for restoration of back pay for employees discharged for union membership and approved collective bargaining between employer and employees.

Announcement was made by Charles M. Schwab, director general of the Emergency Fleet Corporation, that a new tonnage record had been established in August with the completion of sixty-six ships by American shipyards. The board has now completed more than 2,000,000 tons of shipping.

Those Famous Boots of Charlie's Are to Be Put to the Kaiser

TO HELP in the great work of "putting the boots" to the Kaiser, Charlie Chaplin has donated his funny old boots. And with the boots, of course, go Charlie and his cane and his kicks and his wriggles. He is among the stars of the motion picture industry who have donated their services for the making of a series of motion picture films which will be used throughout the Fourth Liberty Loan drive in every theater in the United States.

No star in the country who has ever been a topline will be left out. All have expressed a willingness to play a part in the game of helping sell bonds. Scenarios for the Liberty Loan pictures were written by the best known editors of the country and by the best talent in the motion picture studios. Every picture will not only contain the plea for purchase of Liberty Bonds but will be an interesting story in itself.

CHARLES CHAPLIN.

During the three weeks of the drive—September 28 to October 19—a different picture will be shown in each movie house in the country each night. Three thousand copies of the pictures will be in constant circulation.

WEALTH PUT IN BONDS HASN'T BEEN MISSED

America Has Not Begun Yet
to Really Sacrifice to
Lend to Boys.

BY DELLA THOMPSON LUTES
Author of "My Boy in Khaki" and Editor of American Motherhood.

There is more than one way to fight. There are sea, land, air battles. There are also battles in the pantry, at the kitchen stove, and on the front piazza. Yes, there are even battles in the pocket book.

Unless every person left in America gets into the fight somewhere along the line, the soldiers at the front will have to fight just so much harder, just so much longer, lose so much more blood—give up so many more lives.

Of course the war might be won if you—just you did nothing to help. But when you read these words, a good many thousands others are reading them. So, if you laid down on the job to let the boys fight for you, and every other you of thousands did the same thing, who would feed the boys who are fighting? Who would clothe them, nurse them, entertain them, munition them?

In America there is plenty of money—yet, even though billions of dollars have been raised since we entered the war. The money already raised could be spared as well as not. We have not yet learned to go without in order that we may loan our money to the boys. Uncle Sam handles it, but it goes to the boys. Into the equipment for them, clothes and blankets to make them comfortable, and guns and ammunition to save their lives—and ours.

It is not our fault that there is war. We went in because a decent man cannot stand by and see a bully beat a weaker creature to death, violating every rule of the game.

And now that we are in it we must fight to the last ditch to rid the world of the horrid monster which brought this cataclysm of blood and death upon us. We must fight to the last ditch, and to the last man—and woman.

The men who plow and sow and raise more produce are fighting.

The men who work in factories and shops and ship yards are fighting.

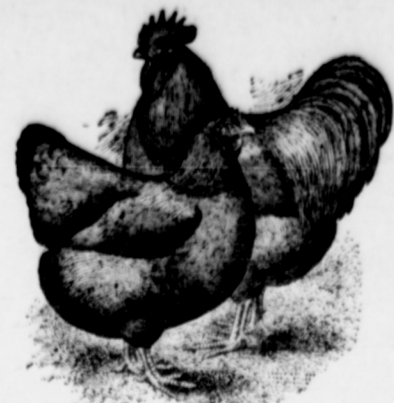

The men and women who work in government offices are fighting.

The women who stay at home are fighting—if they play a square game.

Every person who buys a Liberty Bond is fighting. Some are fighting harder than others because some sacrifice more than others in order to buy their bonds, but all are fighting.

The boys are giving up—everything. They need our help. They will fall if we fail them.
